PROFILE SUMMARY

I am results-oriented Software Developer with about 3 years of experience in coding, testing and establishing system improvements. I have experience building, deploying and managing websites and web applications for organizations both as an employee and as a freelancer, using modern web technologies, and also using the agile system of development. Skilled at team collaboration while working independently in remote environments.

EXPERIENCE

03/2020 – PRESENT

SOFTWARE DEVELOPER, CAVIDEL LIMITED

- Cavidel Limited is a technology and consulting company that helps businesses achieve business advantage using IT to reduce costs, improve productivity and increase efficiency in the delivery of impeccable customer service.
- I work with a team of 5 developers to automate business processes using Laravel framework, jQuery and Microsoft SQL.
- I solved complex performance problems and architectural challenges on existing softwares owned by the company.
- I developed API endpoints for consumption by the on-site Mobile developer.
- Developed architecture of a high end multi-tenant accounting software (accounting.officemate.ng) while maintaining and improving its components to suit the needs of clients.
- Contributed to the development and maintenance of a hospital software used for patient management, inventory management, billing and accounting. (hospital.officemate.ng)

05/2020 – 07/2020

SOFTWARE DEVELOPER INTERN, MANIFEST & COMPANY INC.

- Worked remotely in an agile structured system with daily scrum meetings to analyze what was achieved the previous day, what will be done on that day and if there were any blockers.
- Developed a simple blogging system using NodeJS and ExpressJS as backend technology, PostgreSQL as the relational database and Sequelize as the ORM.
- Teamed up with another developer to develop a simple todo list application using NodeJS and a Bootstrap template.
- Worked with an already developed user module to develop a job listing micro-service.

01/2019 – 12/2019

WORDPRESS DEVELOPER, JETHEIGHTS SERVICES LIMITED

- Developed client and company websites while improving the user interface and efficiency of existing ones.
- Updated contents on the various platforms of the company.
- I developed an affiliate marketing web application (gap.jetheights.com) using WordPress and its components
- Co-developed a video streaming platform using latest web technologies in WordPress.
- Served as a tutor on website design and development using WordPress.

08/2019 – 10/2019

BACKEND DEVELOPER INTERN, HNG INTERNSHIP 6.0

- Worked remotely in a fast pace environment to deliver web applications with PHP and Laravel as the backend technology.
- Collaborated with other backend developers in my team in the integration of user-facing elements developed by the frontend developers.

EDUCATION

08/2017

DIPLOMA IN WEB DESIGN AND DEVELOPMENT, UNIQUE COMPUTER INSTITUTE OVERRI, IMO STATE.

12/2015
